

# World War Iii

## Unwritten Law

This is a question of the human  
Race will this planet remain in  
Space two world leaders get  
In a fight we'll all be gone  
In a flash of light  
When I die for my country  
I'll take no part in the destruction  
From World War III

I have no answer not my  
Decision and if I spoke no one  
Would listen is this the end  
Of history, why should I care  
Why should I worry  
When we die for our country  
We'll take no part in the destruction  
From World War III
