

# Under Construction

## Blind Date Quartet

Brick, brickBrick by brick  
You know you build up a pretty big bridge  
Now don't you tell me SOMETHING  
All over againCaution here  
Now I'm scared I may just hit my head  
You're taking me step by step  
I'm falling againYou got me under constructionWalls  
Wall by wall  
You felt this home barely hanging at all  
But I know you won't let me fall  
All over againNail by nail  
I hear you pushing, you pushing me well  
You know when I'm going through hell  
You feel me againYou got me under construction
