

# Legends Never Die

## Ferras

Rev up leave 'em all in the dust  
Got a Cadillac six-pack vision of us  
Tonight, we ride high into desert sky  
Hands up feel the heat in the air  
Legends never die they play truth or dare  
Tonight we stop time, let go of the wheel and drive  
How does it feel to fly  
We are the stars that shine  
We don't even have to try  
We could go down in flames  
But we'll melt our world away  
All I know it's you're my rock n roll  
And wherever we go we are heroes, heroes  
They don't make 'em like you and I  
Legends never die  
Undressed in a beautiful mess  
But I got your gold heart right here on my chest  
They say we're crazy  
So baby let go insane  
Cause I'm okay when we're together  
I know we will live forever maybe  
One day we'll make history  
How does it feel to be free  
We are the stars that shine  
We don't even have to try  
We could go down in flames  
But we'll melt our world away  
All I know it's you're my rock n roll  
And wherever we go we are heroes, heroes  
They don't make 'em like you and I  
Legends never die  
Legends never die, die  
Legends never  
Burn out, just a fade away  
We keep the clock turning like a figure 8  
Tonight, it's our time  
Let go of the wheel and drive  
We are the stars that shine  
We don't even have to try  
We could go down in flames  
But we'll melt our world away  
All I know it's you're my rock n roll  
And wherever we go we are heroes, heroes  
They don't make 'em like you and I  
Legends never die

Legends never die, die  
Legends never And wherever we go we are heroes, heroes  
Legends never die, die  
They don't make 'em like you and I  
Legends never die, die  
Legends never die, die
