

Ten Minutes (7" Version)

The Get Up Kids

Ten minutes to downtown
Is ten minutes too far
When my friends all say I'm crazy
Maybe I'm being selfish
Maybe I'm just scared Don't be gone when I get home
I need you there If I had to explain it
I wouldn't know where to start
It's like you're falling in love
While I just fall apart Ten minutes to downtown
Is ten minutes too far
When my heart is saying you're crazy
Maybe things are getting better
Maybe things aren't so bad Don't be gone when I get home
You're all I have If I had to explain it
I wouldn't know where to start
It's like you're falling in love
While I just fall apart Pockets empty, how can you tell me
That everything will work out?
A pointless fight when you're always right
And everything will work out, it works out Sometimes, I miss you more
Whenever I'm at home
I've been home all summer
Now I'm leaving you alone Pockets empty, how can you tell me
That everything will work out?
A pointless fight when you're always right
And everything will work out
Everything will work out
Everything will work out
