Suffer Well

Depeche Mode

Where were you when I fell from grace
Frozen heart, an empty space
Something's changing, it's in your eyes
Please don't speak, you'll only lieI found treasure not where I thought
Peace of mind can't be bought
Still I believeI just hang on
Suffer well
Sometimes it's hard
It's hard to tellAn angel led me when I was blind
I said, "Take me back, I've changed my mind"
And now I believeFrom the blackest room, I was torn
He called my name, a love was born
So I believeI just hang on
Suffer well
Sometimes it's hard
It's hard to tellI just hang on
Suffer well
Sometimes it's hard
So hard to tell
