

# The World Turned Upside Down

## Chumbawamba

X and Y

The land, sea, rivers, trees, the stars, the sky

That and this

We're part of a bigger plan don't know what it is

Don't know what it is

You and me

The land, sun, trees, the sky, the stars, the sea

365 degrees I am a puzzle, you're the missing piece

Hang on a minute, just a minute please, I'll come

And everything under the sun

And everything under the sun

What is this feeling that I can't explain?

And why am I never gonna sleep again?

What is this thing I've never seen before?

A little boy lost in a breaking storm

Hide and sob and away they fly

So write your name in the summer sky

Life has really only just begun

Life that comes and everything under the sun

X is Y

The land, sea, rivers, trees, the stars, the sky

365 degrees, all of the surface and the underneath

Searching your mellow and outsings your key, ah

And everything under the sun

And everything under the sun

What is this feeling that I can't explain?

And why am I never gonna sleep again?

What is this thing I've never seen before?

A little boy lost in a breaking storm

Hide and sob and away they fly

So write your name in the summer sky

Life has really only just begun

Life that comes and everything under the sun

And you don't know that you've been born

Can't see the calm until the storm

Can't tell your right side from your wrong

Can't see the wave you're riding on
