Going All The Way

Matthew Good Band

Well, this is it, so where it's at monomaniacs
Baby, you know all we're good for
Drugs for the kids, if the kids are flat
All dressed up to match
Those shit eating grins look effortless
And if there's nothing left to die for
And all this our beauty is just decay
And if there's nothing left to die for
Then you and me, let's go out going all the way
Well, this is it, so where it's at megalomaniacs
Baby, you know it's all we're good for
Those missile men with their master plan
Don't get paid to understand
Makes you wonder where we got these shit eating grins from
And if there's nothing left to die for
And all this our beauty is just decay
And if there's nothing left to die for
Then you and me, let's go out going all the way
Dreams of sea caught way inland
Cut as losses we'll cut our losses
We'll cut our loss
