# Stay

## Jon Secada

Stay with me a while
'Cause you know I'll always need you
Don't go, don't go
Stay with me a while
'Cause you know I'll always need you
Don't go, don't go away
What if the night time comes without the moon?
If the sun sets down before noon?
If I promise you, you promise me the world
Could it be that you and I could fall in love too soon?
As long as there's tomorrow
It's alright, it's alright, so won't you
Stay with me a while?
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go
Stay with me a while
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go away
Real, so real's the passion that we live
When urgency meets destiny
So, no one can overcome the powers that be
And what is could be a love so sweet
And tenderly together without question
My mind is set and clear, so won't you
Stay with me a while?
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go
Stay with me a while

(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go away
Stay
Please stay
Stay
Stay

Please stay
Stay with me a while?
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go
Stay with me a while
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go
Stay with me a while?
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go
Stay with me a while
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go
Stay with me a while?
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go
Stay with me a while
(Asking you to stay)
'Cause you know I'll always need you
Don't go, don't go
