

# Every Moment

[Clem Snide](#)

We'll soon make memories of things to come  
Time will pass  
Memories of hard times and of fun  
Will our love last?'Cause every moment must make way  
For one that's new  
But just before it does  
Remember I love youThe years are like the clouds up in the sky  
They come and go  
And everything that lives will someday die  
But our love still grows'Cause every moment must make way  
For one that's new  
But just before it does  
Remember I love you
