

Flesh And Blood

Stereo Fuse

The waves are rollin' in and the sun is setting down
Another little day in this sleepy little town closer to the edge
Think about it all all over again hear your voice ringing in my head

Remember, what you said

Please excuse me, but I just don't understand
How can you refuse me when I need a friend
Go ahead and abuse me 'cause I just can't get enough
Please excuse me I'm only flesh and blood
You think that everything that glitters is gold

It's just a one way ticket to the loss of your soul closer to the edge

You believe what you want to believe

You got your own eyes but you're too blind to see

Remember, what I said

Please excuse me, but I just don't understand
How can you refuse me when I need a friend
Go ahead and abuse me 'cause I just can't get enough
Please excuse me I'm only flesh and blood
