Cross That Line

Joshua Radin

All along, I thought something would go wrong
But didn't you?
Walls were up we never pushed our luck
Like we wanted too

(Chorus)
Every time I lose myself I find
I'm left alone
But you, need to know
For your I'd break these walls
I choose to fall
I'm gonna cross that line for you

The sun is down
I thought you'd be gone by now didn't you?
All night, I watch you face in the fire light and I say to you

(Chorus)
Every time I lose myself I find
I'm left alone
But you need to know
For your I'd break these walls
I choose to fall
I'm gonna cross that line for you

I don't know the right way
Wonder what you'd say if I let go

For you I'd break these walls
And I choose to fall
I'm gonna cross that line for you.. tonight
For you I'd break these walls
and I choose to fall
I'm gonna cross that line for you

The sun is down
I thought that you would be gone by now..
