

# Lonely Road

Steve Carl

Lonely road, we gotta walk it just a little bit farther  
Heavens knows it can't get any harder than it is today  
    Lonely road, it's not ahead but is it getting farther  
    Heaven knows it can't get any darker than it is today  
        Who do you miss in times like this  
When your thoughts are filled with sadness and regrets?  
    To who do you pray when you've lost your way  
        And you've such a heavy load?  
    Let me walk with you upon this lonely road  
    Lonely road, empty kitchen and a brand new feeling  
Nothing's moving but my heart is reeling since you went away  
    Lonely road, gotta walk it till I start forgiving  
    Find another way to go on living without you today  
        Who do you miss in times like this

When your thoughts are filled with sadness and regrets?  
    To who do you pray when you've lost your way  
        And you've such a heavy load?  
    Let me walk with you upon this lonely road  
    Lonely road, you gotta walk it till the thought astounds you  
And you look and find that all around you, people walk with you  
    Lovely road, you gotta walk it till you won't forget it  
        That the point is never where you're headed  
        It's what you're going through  
        Who do you miss in times like this  
When your thoughts are filled with sadness and regrets?  
    To who do you pray when you've lost your way  
        And you've such a heavy load?  
    Let me walk with you upon this lonely road, road
