

Let's Roll

The Stills

Lie on the floor of the runway, baby

Wait for the ride; we'll have a comfortable flight
Don't be afraid, to be afraid here with me
And plunge, me toward into the wormhole with me
Let's roll... [2x] South to the sea, I got a sailboat for free

Yes, little one, we'll sail as soon as we hitch out to sea
Don't be afraid, of the roaming alligators
And save the heart attacks for later
Let's roll... [4x] North, to the French, I know a bar there that's in

Out of the way, in a Hades kind of way

But I'm not afraid, as long as you're here with me
Let's roll... [8x]
