

She's Actual Size

They Might Be Giants

I'm not talking about the ladies actual size
I'm talking about the lady who is actual size
Words fail, buildings tumble, the ground opens wide
Light beams down from heaven, she stands before my eyes
She's actual size but she seems much bigger to me
I've never known anybody like her
She's actual size, nationwide, believe
Big men often tremble as they step aside
I though I was big once, she changed my mind
She's actual size, but she seems much bigger to me
I've never known anybody like her
She's actual size as she drives away
She's got all the money, money couldn't buy
She's got something special that someone left behind
She's actual size but she seems much bigger to me
Squares may look distant in her rear view mirror
But they're actual size as she drives away
Her face stands in portrait on the post office wall
She's stuck in my heart now, where my blood belongs
She's actual size but she seems much bigger to me
I've never known anybody like her
She's actual size, nationwide, believe
