Take Over

Mizz Nina

I tried to run
I tried to fight You, I'm done
I'm giving up
I've learned to trust You, Your love
Now I'm singing

Can You take over, take over? Can You take over me? I've been here over and over again here on my knees I'm only closer and closer to where I wanna be When You take over, take over, can You take over me?

I tried before

To let go and I just hold on more Amazing Lord

I need the strength to let go and be Yours So now I'm singing

Can You take over, take over? Can You take over me? I've been here over and over again here on my knees I'm only closer and closer to where I wanna be

When You take over, take over, can You take over me?

I surrender all I have

And I surrender all I am

As I remember

What You've done to set me free

I just wanna sing

Can You take over, take over? Can You take over me?
I've been here over and over again here on my knees
I'm only closer and closer to where I wanna be
When You take over, take over, can You take over me?
Can You take over, take over? Can You take over me?
I've been here over and over again here on my knees
I'm only closer and closer to where I wanna be
When You take over, take over, can You take over me?

Take over me Take over me
