Rockin' in the Morning

George Hatcher Band

Well I knew that I had it coming,
I knew I'd never let it slip away
You know I had a dream about it,
Like an old suitcase just can't stay

I had to walk the streets of London,
I was only looking for a band
Me & the boys got it together,
Now we play the Boogie baby, Up and down the land

And we were
Rocking in the morning,
Rocking in the evening too
It's a funny kind of feeling,
When you see your dreams come true

I don't know exactly how it got started,
All I know, me & the band started to play
Then the people started coming, they said,
"We hear you play the boogie both night and day."

So we Rocked 'em every morning,
Rocked 'em till the break of day
It's a funny kind of feeling,
When you see your dreams come true

So we Rocked 'em every morning,
Rocking till the break of day
It's a funny kind of feeling,
When you see your dreams come true

It was a hot summertime,
I didn't know what to do
Turned on the radio,
Heard the guitar come cutting through
(Play it!)

Well the nights were long, And the streets were cold,
We didn't do what we'd been told,
Just had to keep, That music coming, cos,

We knew we had to play along
(Play along!)

It's hard sometimes,
I don't know about you, But
Me and the band are,
Gonna play along to

Keep on rocking
keep on playing
Rocking
Playing
It got hard sometimes,
It got hard sometimes

Well I knew that I had it coming,
I knew I'd never let it slip away
You know I had a dream about it,
Packed my old suitcase Now I'm here to stay

And we were, Rocking in the morning,
Rocking in the evening too
It's a funny kind of feeling,
When you see your dreams come true
