I See Love

CeCe Peniston

I have seen a love so true
Dwindling untamed
Lovers passing in the night
With many words unsaid
Come hold me baby
Take me in your arms
We can share the chills of life
Our love will keep us warmLovin' together, love so unreal
I'll leave you never, I know what I feelCHORUS:
I see love forever in your eyes, believe,
To us found, my destiny so unrealI would wish upon a star
But the stars aren't high enough
To show my dreams for me and you
No, a star won't be enough
Come hold me baby
You're my fantasy come true
We can share the chills of life
Our love will keep us warmLovin' together, love so unreal
I'll leave you never, I know what I feelCHORUS
