Alone

Lasgo

If only I had one more chance
To change my life today
Then I would never let you go
All my friends keep tellin' me
That I should leave you for a while
So you must show your love to me
And tell me what you feel
I thought that even you had feelings for me too
I know I was wrong
And baby when you care then I will be there
By your side
And now I stand here alone in the dark without you
There's nothin' more that I would like to be with you
I close my eyes but I can't stop thinkin' of you
And now I stand here alone in the dark without you
All my friends keep tellin' me
That I should leave you for a while
So you must show your love to me
And tell me what you feel
I thought that even you had feelings for me too
I know I was wrong
And baby when you care then I will be there
By your side
And now I stand here alone in the dark without you
There's nothin' more that I would like to be with you
I close my eyes but I can't stop thinkin' of you
And now I stand here alone in the dark without you
