

Heavenly

Sammie

Ghetto sexy Girl, I wish, I could find all the words to say
To let you know that I'm serious and I ain't playing
You're like an angel with wings, watch you float away
Please, just let me hold you Like the first day of April, the start of spring
The flowers, the sun, the joy you bring
You're the music to my ears, you're like a symphony
Feels so good to know you (Something 'bout)
Something 'bout your chestnut eyes, girl
(Something 'bout)
Something 'bout your caramel thighs (Something 'bout)
Something 'bout the way you lick your lips, girl
(Something 'bout)
And I love how you're working them hips, girl (Something 'bout)
I love it how you're rocking them jeans
(Something 'bout)
You're tasteful like my favorite ice cream (Something 'bout)
Your flavor is driving me wild
(Something 'bout)
I wanna play in your clouds How does it feel up there? Come down and let me love you
Would you take me there? Ooh, you look so heavenly
I can't help but stare, wanna share everything with you
Baby, I swear, ooh, you look so heavenly, girl On a scale from 1 to 10, girl, you are off the Richter
If I had to describe you, you a perfect picture
And I heard you're on the market
So I got to get you, girl, I adore you And I know that it sounds like game I'm spitting
And I swear, it's from the heart and none of this is written
Girl, let me complete your puzzle 'cause I'm what you're missing
Baby, I just wanna love you, girl (Something 'bout)
Something 'bout your chestnut eyes, girl
(Something 'bout)
Something 'bout your caramel thighs (Something 'bout)
Something 'bout the way you lick your lips
(Something 'bout)
And I love it when you're moving them hips, girl (Something 'bout)
Ooh, the way you rock them jeans, girl
(Something 'bout)
Tasteful like my favorite ice cream (Something 'bout)
Your flavor is driving me so wild
(Something 'bout)

I wanna play in your clouds
How does it feel up there? Come down and let me love you
Would you take me there? Ooh, you look so heavenly
I can't help but stare, wanna share everything with you
Baby, I swear, ooh, you look so heavenly, girl
How does it feel up there? Come down and let me love you
Would you take me there? Ooh, you look so heavenly
I can't help but stare, wanna share everything with you
Baby, I swear, ooh, you look so heavenly, girl
I wanna play in your clouds, can we start right now?
Everything you need, and your friend is here, right here
Alright, you're so heavenly, baby
You're like an angel from above
I wish you bless me with your love
How does it feel up there? Come down and let me love you
Would you take me there? Ooh, you look so heavenly
I can't help but stare, wanna share everything with you
Baby, I swear, ooh, you look so heavenly, girl
How does it feel up there? Come down and let me love you
Would you take me there? Ooh, you look so heavenly
I can't help but stare, wanna share everything with you
Baby, I swear, ooh, you look so heavenly
