senseless song

The Ambassadors

I'll sing you this song
Filled with words that make no sense
Played with chords that never ends
Please just give me one more chance
To sing this song to you
To sing to you this song
This senseless songI'd never thought that I'd be
Captured by your smile
You rock my world, without you
I can't imagine life
I close my eyes
It see your face that huants me
Deep down inside
And so i pick up my guitar
And hear me sing this senseless songAll this song i sing
what joy it may bring
It's all about a story
Of a hopeless romantic fool
Thanks singing along
I will leave you with this song
Coz i may pass away
But this song will always be
With youYou'll never miss the water
Till the well is went dry
You'll never miss the moments
Till it pass you by
You'll never miss the time
While i'm still here
You'll never miss me
Till i disappearThis song i sing
What joy it may bring
Oh baby It's all about a story
Of a hopeless romantic fool
Thanks singing along
I will leave you with this song
Coz i may pass away
But my big heart will always be
Coz i may pass away
But my heart will always be

With you
