

Just In love

Selena Gomez

Shiny, have you seen my world in new colours?
How you fire from a rocket through universe
I'm up on the sky and the dream's so blue
I live in the sky, you come live here too I'm queen of the clouds
Make my wish come true
I sing to the night
Let me sing to you Baby, listen please
I'm not on drugs
I'm not on drugs
I'm just in love Baby, don't you see
I'm not on drugs
I'm not on drugs
I'm just in love You are enough for me Light brighter, pick the biggest stars of mine
And I'm trip-trip-tripping in my empire state of mind
Ooh, I'm up on the sky and the dream's so blue
I live in the sky, you come live here too I'm queen of the clouds
Make my wish come true
I sing to the night
Let me sing to you Baby, listen please
I'm not on drugs
I'm not on drugs
I'm just in love Baby don't you see
I'm not on drugs
I'm not on drugs
I'm just in love You are enough for me (high [x4]) You're high enough for me Baby, listen please
I'm not on drugs
I'm not on drugs
I'm just in love Baby, don't you see
I'm not on drugs
I'm not on drugs
I'm just in love You're high enough for me (high) [x4]
