

11 Out Of 10

Play

Well it ain't my style to be jealous and bad mouthin'
But I've known a while I can see some trouble comin'
Shut your eyes but I think you might regret it
Will you take advice and remember that I said it baby She's a eleven outta ten for misery
So get your act together can't you see
She's a eleven outta ten for vanity
And everyone sees it but you When you've woken up come around
When you're broken up come around Well I know her type, she's a mover and a shaker
When the time is right she will turn around and break you
Get with me I will cut the ties that bind you
So tenderly give the sign and I will find you She's a eleven outta ten for misery
So get your act together can't you see
She's a eleven outta ten for vanity
And everyone sees it but you When you've woken up come around
When you're broken up come around Eleven outta ten it don't add up
Eleven outta ten boy you're stuck
Eleven outta ten you're all messed up
Eleven outta ten it don't add up
Eleven outta ten boy you're stuck
Eleven outta ten you're all messed up When you've woken up come around
When you're broken up come around
(Come around, oh come around)
When you've woken up come around
(When you're woken up come around)
When you're broken up come around
(Broken up)(When you've woken up come around)
Eleven outta ten it don't add up
Eleven outta ten boy you're stuck
(When you're broken up come around)
Come around Eleven outta ten it don't add up
Eleven outta ten boy you're stuck
Eleven outta ten you're all messed up
Eleven outta ten it don't add up
Eleven outta ten boy you're stuck
Eleven outta ten you're all messed up
