With You

Vince Gill

I can just see us now
You and me paintin' the town
Forever just foolin' around with you
Just think of the things we'd do
Baby, just me and you
My heart could finally be true with you
With you and you with me
Is all that I can see
It ain't no mystery
I long to always be with you
With you, what a dream we'd do
I see you in every dream
Girl in my eyes, you're a queen
My happiness you could bring with you
So what are you waitin' on
Just say the word and we're gone
I'll be right where I belong with you
With you and you with me
Is all that I can see
It ain't no mystery

I long to always be with you
Oh darling
So in love with you
I'll keep on callin'
'Til you make my dream come true
I can just see us now
You and me paintin' the town
Forever just foolin' around with you
Just you
Just you and me, baby
What a dream with you
Just you
I wanna be with just you
I wanna be, I wanna be
I wanna be with you, baby
Oh I wanna be with you
Just you and me, baby
