Watch Me Go

Girls Aloud

I just wanna do it to you baby, watch me go
I wanna give you combinations, I could tell you
But you already know for sure, I wanna feel
That funky fever, baby I'm at the door, got the keys
Got the gasoline, pour it on, I'm ready to blowAt quarter past one, I was havin' fun
Tryna get it on, tryna make a move
Quarter past two, I was dressed in red
Tied up to your bed, begged you on my kneesQuarter past three, I was in the shower
Almost half an hour, you were at the door
Quarter past four, you were back again
Said your name was Ben then we went for moreI just wanna do it to you baby, watch me go
I wanna give you combinations, I could tell you
But you already know for sure, I wanna feel
That funky fever, baby I'm at the door, got the keys
Got the gasoline, pour it on, I'm ready to blowAt quarter past one, I was havin' fun
Tryna get it on, tryna make a move
Quarter past two, I was dressed in red
Tied up to your bed, begged you on my kneesQuarter past three, I was in the shower
Almost half an hour, you were at the door
Quarter past four, you were back again
Said your name was Ben then we went for moreStrippers and the vicars in the back
First man cracked, jump on the main line track
And I take a little bit of pay, okay
And the beat of the big tromboneSo strippers and the vicars in the back
First man cracked, jump on the main line track
I take a little bit of pay, okay
And the beat of the big trombone, soI just wanna do it to you baby, watch me go
I wanna give you combinations, I could tell you
But you already know for sure, I wanna feel
That funky fever, baby I'm at the door, got the keys
Got the gasoline, pour it on, I'm ready to blowI know what you're thinkin', you been thinkin' 'bout my butt
Bet you'd like to know what's got my body feelin' hot
I know what you're thinkin', you been thinkin' 'bout my butt
Bet you'd like to know what's got my body feelin' hotI know what you're thinkin', you been thinkin' 'bout my butt
Bet you'd like to know what's got my body feelin' hot
I know what you're thinkin', you been thinkin' 'bout my butt
Bet you'd like to know
