

If You Want Me

Cisco Cisco

I've never felt this way before, girl every time I see you
My heart hit the floor, yeah, so beautiful what can I say
You're my sunshine on a cloudy day, you have everything I need
And there is nothing more that I could ever want
If your love is for sure, girl I wantcha all the time
I keep giving you all the signs, oh I just really need to know
If you want me baby, let me know
And if you need me then you got to let your love show
When you do what you do, I can't help loving you
Girl, you need to let me, what's goin' on? What's goin' on?
I need to know what's on your mind
'Cuz you know I'd do anything to make you mine
I wanna be the only one
To keep you feelin' good all the time
Well, you can tell me anything and I will be alright
But girl, just stop pretending, I can't live a lie
But girl, you put me on this high and I hope you realize
That I only wanna be your man
If you want me, baby let me know
And if you need me then you got to let your love show
When you do what you do, I can't help loving you
Girl, you need to let me, what's goin' on? What's goin' on?
If you want me, baby let me know
And if you need me then you got to let your love show
When you do what you do, I can't help loving you
Girl, you need to let me, what's goin' on? What's goin' on?
If only you take this chance I promise you
I won't let you down, girl I, girl
I could be there for you if you want me
Gotta tell me what's goin' on
If you want me, baby let me know
And if you need me then you got to let your love show
When you do what you do, I can't help loving you
Girl, you need to let me, what's goin' on? What's goin' on?
If you want me, baby let me know
And if you need me then you got to let your love show
When you do what you do, I can't help loving you
Girl, you need to let me, what's goin' on? What's goin' on?
If you want me, baby let me know

And if you need me then you got to let your love show
When you do what you do, I can't help loving you
Girl, you need to let me, what's goin' on? What's goin' on?
