

Boxcar Blues

The Ultimate Bearhug

Still as the crowd rushes by us
My eyes wouldnt move if I asked them to
I get lost without you
Just cant shake those boxcar blues
On the move, me and you, were just passing through
Resting my cheek gainst the window
Such a nice lullaby is the rumble below
Its your song, its so sweet
It could rock me right to sleep
If Im still in my seat I can feel your heart beat
Maybe Im nave, but its everything to me
Oh that I could fall in love with a train
My heart belongs to an engines song
It carries, oh it carries me away (Instrumental/hummed verse)
