

# Moon Sugar

## Night Beds

If you ever could need me  
You know where to find me  
Nose in the funny business  
All that you've done for Moon Sugar  
Knowing that you dove for Moon Sugar  
Moon Sugar  
I left you at the store  
Left you at the door  
You can always say, this is out of [?]  
Howling at your door  
Heaving on your floor, give me Moon Sugar  
Moon Sugar  
The last time  
Last night  
Last night in your city  
There's a man at war with himself  
There's a man with a war that he runs the whole night through  
I've got your dusty blue pillow  
I've got your dusty blue dress  
Pleasure  
Pleasure of the dream you had  
Can't remember pleasure  
The worst dream you've ever had  
You can't remember  
Fire in your hand  
The night that you came  
I asked you to stay  
But you went all the way  
Way out west to LA  
The night that you came  
I asked you stay  
Get in the car and scream  
Get in the car
