# People

## Soul II Soul

People go by, go by and go by
People go by, go by and go by
People go by, go by and go by
People go by, go by and go by
People go by, go by and go byWalking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)Walking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)
I can make you happy
Sometimes blue, yeah
Feel the need this time
Feel the things that I feel for you
True, trueLife has no rules
It's a face in a changing world
If you win there's a price
That you must payWalking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)Walking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)
People, from far and ride
Brought together as a nation to ride
We've all got to analyze
Situations that need no disguiseLend your hand to understand
Spreading joy and love throughout the land
Lend a hand, Mister
Won't you, won't you understand?Gotta make it right, Mister
Together and hold it very tight now
Gotta make it right
Together, make it tightWalking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)Walking down the street watching people go by
(Watching you, watching you)

Watching you
(Watching you, watching you)Walking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)Walking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)This time we make a stand
To be happy to live on this land
When only seems a fewHave the people on the street
Watchin' me, watchin' you
Watchin' me, watchin' you
Watchin' me, watchin' you, MisterIn most everything we do
Feel the need to do the things
That make life for youWalking down the street watching people go byWalking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)Walking down the street watching people go by
(Watching you, watching you)
Watching you
(Watching you, watching you)Gonna make it right
Hold together tightWalking down the street watching people go by
Watching you
Walking down the street watching people go by
Watching you
