

Parasite (Album Edit Instrumental)

Hadouken!

No longer one
Not symbiotic
Its all I have
I gave you everythingTake what you want
Then neutralise it
Its all I have
I gave you everythingTake all you want from me
Take all you need from me
I took a step back now I realise
We can catch you by your parasiteHalf of me is half of you
Half of me is half of youTake all you want from me
Take all you need from me
Before my eyes then I realise
We can catch you by your parasiteBut I wont fall this time
And thats the thing?
You wont get everything
Just have my life
But I wont fall this time
And this parasite
Is still alive!AWH!This parasite
Is still alive!But I wont fall this time
And thats the thing
You wont get everything
Just have my life
But I wont fall this time
This parasite
Is still alive!JUMP!AWH!Before my eyes
Then I realise
We can catch you
By your parasiteBut I wont fall this time
And thats the thing
You wont get everything
Just have my life
But I wont fall this time
And this parasite
Is still alive!AWH!Parasite!Take all you want from me
Take all you need from me
This parasite
Is still alive!
