

Speedway

Elvis Presley

Take a ton of bolts and steel
A whole lotta sweat, a set of wheels
On the speedway the flag is down, pistons pound
Plenty of engines ripping around on the speedway
Go for the money and lead the pack
Push the throttle and burn the track
Curl and swirl like you doin' a dance
Straight away's comin' and now's your chance
On the speedway, on the speedway, on the speedway
Stoke that pedal down to the floor
As much as you give, the crowd wants more
More, more, more, more, more on the speedway, on the speedway
Take a spin, hit the brakes
A young little girl shivers and shakes on the speedway
Clear the way, comin' through, kiss from your baby
Just pushin' you on the speedway
Go for the money and lead the pack
Push the throttle and burn the track
Curl and swirl like you doin' a dance
The straight away's comin' and now's your chance
On the speedway, on the speedway, on the speedway
Stoke that pedal down to the floor
As much as you give, the crowd wants more
More, more, more, more, more on the speedway
On the speedway, on the speedway
On the speedway, on the speedway
On the speedway, on the speedway
On the speedway
