

# Blow Me Away (Rafael Lelis Sampa Edit)

Wanessa

You're coming closer and closer to me  
I feel you breathe - I feel you breathe  
You think you got it - know just what I need  
Well let me see - well let me see C'mon get me caught up  
Let me see you take me down  
Teach me a lesson  
Right here - right now Cause baby everything you wanted is right here - right here C'mon spin my head round  
Know what I'm talking 'bout  
Can you make my heart pound  
Dizzy dizzy breakdown If you got it let me know it I'm right here - right here Blow me away - I wanna play with  
fire  
Boy won't you take me and make me  
Go crazy for you  
Blow me away - then take me higher  
C'mon and rock me and shock me  
And make me love you Blow me away - take me away  
Don't make me wait - blow me away  
Blow me away - take me away  
Don't make me wait - blow me away Boy keep talking what you gonna do  
Just make me see - just make me see  
This is the moment you've been waiting for  
The energy is calling me C'mon get me caught up  
Let me see you take me down  
Teach me a lesson  
Right here - right now  
Cause baby everything you wanted is right here - right here C'mon spin my head round  
Know what I'm talking 'bout  
Can you make my heart pound  
Dizzy dizzy breakdown  
If you got it let me know it I'm right here - right here Blow me away - I wanna play with fire  
Boy won't you take me and make me  
Go crazy for you  
Blow me away - then take me higher  
C'mon and rock me and shock me  
And make me love you  
Blow me away - take me away  
Don't make me wait - blow me away Blow me away - take me away  
Don't make me wait - blow me away  
Blow me away

(Take me so far away - c'mon don't you wanna play)  
Boy won't you take me and make me  
Go crazy for you Blow me away  
(Take me so far away - don't wanna wait another day)  
C'mon and rock me and shock me  
And make me love you  
Blow me away - take me away  
Don't make me wait - blow me away  
Blow me away - take me away  
Don't make me wait - blow me away
