

The World Will Never Do (featuring B.o.B)

Cobra Starship

A precocious kid always had to do it my way
Go on tell 'em what I did
I always will admit it my way
Always had my eyes set on the top
Everybody want what they never did got I know it sounds cliché, but you know it's true
Girl there's no me without you Who wants the world?
The world will never do
Who wants the world to deceive them? We've got no reason to be alone now
We got no reason to be what they want us to be I'm taking my time
'Cause I know, soon you'll be mine
That's for sure I'll show you the way it could be
Just pay for my crimes, the rest is free Who wants the world?
There's no world without you
