

# Waterworld

## Hampenberg

For those that know me  
For those that know me  
For those that know me  
For those that know me, indeed I like to flow Authentically raw wit it, see I augmented this industry  
To submit to my will, all attempts to limit me  
Can kneel, peel caps wit ill raps  
Nothing convenes here till your camp gets smeared like pap What you tryin' to tell me, skills never found me  
Workin' for peanuts amongst jelly MC's, really ain't my steez  
Peep game, I plot on different ways to make these styles  
Ricochet through main frames The day-to-day theme is turn these fake teams gangrene  
My main vein's the only thing about me mainstream  
You doubt me like the foes of Noah, embarkin' in this Ark  
The soul controller, while fools caught up in this Del used to blow up You're inundating wit the out-dated  
See all of y'all fall when this cascade hits  
Yo D, watch these watered-down clowns get drowned  
And lounge sound broken down in Cuba tryin' to build ships off shit they bit I spit that major play saliva  
Taylor-made for cypher sole survivor  
Pay the piper if you plan to go inside my covenant  
Better come in two's, matta fact come a crew to get you back Executives, we wet you wit the hymns that leave  
you and your man  
Packin', attackin' wit verbal cataclysms  
Leavin' the average rapper drenched and grab a trench  
Guard against my El Nino lingo  
A labyrinth of keen flows, concealed within the single This is Waterworld  
For those that know me, indeed I like to flow  
Waterworld  
For those that know me, indeed I like to flow This is Waterworld  
For those that know me, indeed I like to flow  
Waterworld  
For those that know me My scripts consist of H2O, hip hop and oxygen  
I flip commission doctrines that make me Shake-Speare's pier  
Upon this here tear I fear not  
Killin' furious wit the superior onslaught On top of this isle solo, like Gilligan wit a million styles  
To throw yo' way wit capital A  
We make waves, causin' tsunamis to your armies  
Splashin' like the cracken on clash of the Titans, writin' calmly Call me Aquarius, each full page a new age  
I'm on a crusade to ranter your parade  
See 'Core is more than three-quarters of what this rap world secure  
So this is Chinese water torture for MC's to endure As I restore this reservoir wit my repertoire of metaphors

Step into the 'Core, better have your life insured  
For supernatural disasters, I'm quick to cast a flame  
To your astral plane, it's bitch-made, get played like CanastaWaterworld  
For those that know me, indeed I like to flow  
This is Waterworld  
For those that know me, indeed I like to flowWaterworld  
For those that know me, indeed I like to flow  
This is Waterworld  
For those that know meWhat's an MC without concepts  
I speak easy comin' to offset your plumbing  
Like leaky faucets, runnin' my dungeon wit aquatic contraptions  
The fifth fold's a fish bowl, kick hard as contractions  
Wit skitzo-memos closed-captionedYour lip's sewed 'cuz hardest to your fraction try to test me  
You wouldn't tip-toe through Moses parted Red Sea, it's bound to collapse  
So now what makes you think the sound of these raps  
Is something different, I'm even pitchin' the kitchen sink wit comin' with itLiquefied rhymes rhyme wax  
It's time for jack-fakers to vacate, they take up space  
Like the Great Lakes, makin' a great case for me to hate  
Paint a picture clear as Evian, raps on tap like Savior GloverUndercover, peeps wonder, why he became the  
architect 'cuz none love us  
We spark the shit that makes the blood cometh  
Wash away your blockade plus your brigade  
Tryin' to sandbag clever words togetherThe weather, the storm, porn's poured on cassette wit architect sweat  
In the cores of us form when he pass Tech-12's  
I delve deep in this abyss, inspect hell  
Tell a fallen angel to eat a dick if he gets pissed 'cuzThis is Waterworld  
For those that know me, indeed I like to flow  
Waterworld  
For those that know me, indeed I like to flowThis is Waterworld  
For those that know me, indeed I like to flow  
Waterworld  
For those that know me, indeed I like to flowFlow  
Flow  
Flow  
...
