We Can Win

Linda Lewis

With the wind on our skins
We can win, we can lose
We'll look up for the mountains
We can travel any path we chooseWon't you sing me a song
While the sun's going down
All the colours of evening in your hair
There'll always be aroundWe could build a fire in this land
Yea, yea, yeah
maybe they will see and understandWon't you bring me a smile
Let the dawn of the day
Take my hand in the morning
As we walk along the winding wayWe could build a fire in this land
Yea, yea, yeah
Maybe they will see and understandWith the wind on our skins
We can win, we can lose
We'll look up for the mountains
We can travel any path we chooseWith the wind on our skins
We can win
Yes, we can
