

# BLACK CATS

## Black Cats

Shadowlike they haunt me at night  
Horrible dreams to grab my sleep  
    Whatever I do, wherever I go  
They're always near besideIf these turn up there ain't no joy  
    All I can's detroy  
    If these turn up there ain't no joy  
Nothing works to scare 'em away[Chorus:]  
    Black cats, black cats  
    Always scary, how do I lose em'  
    Black cats,black cats  
An evil omen - Black catsStumbling through the streets at night  
I was overcome again by this bothersome plague  
    It didn't come off it's over now  
    This was the final show  
If these turn up there ain't no joy  
    All I can's detroy  
    If these turn up there ain't no joy  
Nothing works to scare 'em away
