

Cuts Like a Diamond

Little River Band

Breaking ground is what I do
I'm searching for what's inside of you
A diamond rough is hard to cut
Is this one's taken everything I got I know that a beauty lays deep inside
Its body on the rise Cuts like a diamond, stone against stone
Showing me everything that lives in your soul
Cuts like a diamond, your love and mine
Bring it out, the things left untold
Giving us life
Breaking ground is breaking through
You found in me what I found in you
The heart will know what the eyes can't see
This time around I do believe That we'll love the beauty there, deep inside
Far beyond our eyes Cuts like a diamond, stone against stone
Showing me everything that lives in your soul
Cuts like a diamond, your love and mine
Bring it out, the things left untold
Giving us life Angel writings, can never know when they'll be found
When you least expect it, they'll come around Cuts like a diamond, stone against stone
Showing me everything that lives in your soul
Cuts like a diamond, your love and mine
Bring it out, the things left untold
You're like a diamond, more than you know
Showing me everything deep in your soul
Cuts like a diamond, your love and mine
Bring it out, the things left untold
Giving us life
