

A Guitar and a Heart

M83

You can shoot the breeze
You can shoot your shit
You can shoot it up
Ah, you can shoot from the hip
You can break the rules
You can break your balls
You can break your neck
You can break your back
But you can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can shoot the breeze
You can shoot your shit
You can shoot it up
Ah, you can shoot [Incomprehensible]
You can break the rules
You can break your neck
You can break your balls
You can break your back
But you can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can shoot the breeze
You can shoot your shit
You can shoot it up
Ah, you can shoot from the hip
You can lose your mind
You can lose your quid
You can lose your Louisiana
You can shoot [Incomprehensible]

You can break the rules
Or you can break your bones
You can break your back, break your back
You can break your neck
But you can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
You can't break a heart and have it
No
