

Say It Isn't True

Agent Orange

Another time - another place
Another answer just in case
It's just a memory that I will soon forget
Another glamorous debut
Another chance to see right through
Your empty promises that mean so much to me
And all at once I get the feeling
That I'll never get the chance to talk to you
And all at once I get the feeling
That I'll never hear you say it isn't true
I had a dream - I saw you in a magazine
I turned the page and you were gone
I can't explain - I can't express the way I feel
It's so complex - it's so unreal [Chorus]
All these places I have been
There all the same - it's just the miles and miles
That set them all apart
And all these faces I have seen
It seems to me that they've been
Trying to tell me something from the start
