

# Crickets and Spiders

## Full Service

When everybody's gone  
And nobody's breathing  
What's the color ?nothing?  
What's the sound of ?no?

On my lawn  
Critters crawl and make they're way through dirt they scare me  
Something's wrong  
Not too long  
Not too long ago I hated crickets, spiders  
Ants on logs  
Hated bees  
Hated worms I hated things that slid and hopped and slithered  
Lizards, frogs

Troubled times  
Troubled mind you were my anchor in this big sea  
Every time  
Heard a song  
Heard it drivin' on my way to Minnesota  
Sang along  
Made me cry  
Made me think about my life when you were in it  
Lullaby

Once I had a thought  
Made me so upset  
Asked my mother things about existence and death  
That's one concern too big  
Told me not to worry, ?you've got so much time to live?  
Held me very long  
Told me ?child, be strong.?
