

Standing In China

Cody Simpson

Feels like I'm standing in China,
while you're in L.A.
And I'm sending the sign up,
and hoping you'll stay
I know you,
there's no need to put your walls up
I will never hurt you
It's true, I'm falling too
Don't hide it,
I will not desert you
What would I do without you?
Do without you
Feels like I'm standing in China,
while you're in L.A.
And I'm sending the sign up,
and hoping you'll stay
Feels like I'm standing in China,
so far away
Come closer to me,
come closer to me
Cause this can work if you let it,
work if you let it
Oh, Ohh, Oh
This can work if you let it,
work if you let it
Oh, Ohh, Oh, Ohh
They say distance makes the heart grow fonder
But I don't think I can take it
You're right here,
let's not fear any longer
Ohh
I believe we can make it
What would I do without you?

Do without you
Feels like I'm standing in China,
while you're in L.A.
And I'm sending the sign up,
and hoping you'll stay

Feels like I'm standing in China,
so far away
Come closer to me,
come closer to me
Cause this can work if you let it,
work if you let it
Oh, Ohh, Oh
This can work if you let it,
work if you let it
Oh, Ohh, Oh, Ohh
Break down your walls,
we can still have it all
I don't want to fall apart
I know there's a way to get you to stay
Feels like I'm standing in China,
while you're in L.A.
And I'm sending the sign up,
and hoping you'll stay
Feels like I'm standing in China,
so far away
Come closer to me,
come closer to me
Cause this can work if you let it,
work if you let it
Oh, Ohh, Oh
This can work if you let it,
work if you let it (x2)
Feels like I'm standing in China
