Devil Girl

Tiger Army

she's my little devil girl whoah no. cruising down the road with her oh. when i'm inside of- there ain't nothing else, nothing else... even as the time is getting tight and i'm falling down again. off i cruise into the night, that's been my only friend. like an angel from hell she comes to me, but her dress can't hide her devil tail. she is temptation. she smiles and i'm damned if i do, damned if i don't. even as the time is getting tight and i'm falling down again. off we cruise into the night that's been my only friend. even as the time is getting tight and i've fallen down again. off i cruise into the night... and i'm alone once again.
