

Floaters In Mud

Sepultura

Advisory - the following lyrics contain explicit language:

Stuck in the ground
Shopping for support, nothing can be found
The mind floats 'round
Crashing back and forth, never really stopping Turn around and try to face yourself
You may think it looks like someone else Look from outside they don't heal
I'm passing through shaking hands
Eyeless, shit faced, they're not real
Mud in the brain, all insane Turn around and try to face yourself
You may think it looks like someone else Raw display of pain
No shelter, refugee
No shelter, refugee Floaters in mud Turn around and try to face yourself
You may think it looks like someone else Turn around and face yourself
Turn around and face yourself
Turn around and face yourself
Turn around and face yourself
