Pretty Thing

Sasha

Wake up, break up, step out of your dream
Never gonna get my loving
Life's not what it seemsClaiming she's from Hollywood
But she's a southern girl
Trying to make a living
In a mad and crazy worldMoney's all that matters
In her narrow mind
Once you start to talk to her
She's of the simple kindOh, you pretty thing
You're superficial (you're superficial)
Oh, you pretty thing
Born artificial (you're artificial)Wake up, break up, step out of your dream
Never gonna get my loving
Life's not what it seems
You better wake up, break up, got to get a life
Never gonna get my loving
Cause you can't make it rightWaiting in the hotel lobby
Hanging at the bar
Checking out the VIP's
Pretending she's a starGirl, you're looking good to me
But looks ain't everything
You won't get my sympathy
Nor my diamond ringOh, you pretty thing
You're superficial (you're superficial)
Oh, you pretty thing
Born artificial (you're artificial)Wake up, break up, step out of your dream
Never gonna get my loving
Life's not what it seems
You better wake up, break up, got to get a life
Never gonna get my loving
Cause you can't make it rightWake up, break up, step out of your dream
Never gonna get my loving
Life's not what it seems
You better wake up, break up, got to get a life
Never gonna get my loving
(Who do you think you are)
Cause you can't make it right
(You pretty thing)Whatcha wanna be
Whatcha wanna say

You pretty thingOh, you pretty thing
Fact satisfaction no artificial, no, oh
Oh, you pretty thingWake up, break up (oh) step out of your dream
Never gonna get my loving
Life's not what it seems
You better wake up, break up, got to get a life
Never gonna (oh) get my loving
Cause you can't make it right, ohWake up [oh, you pretty thing]
Break up (you pretty thing) step out of your dream
Never gonna get my loving (no, no, no, no, no)
Life's not what it seems
You better wake up [oh, you pretty thing]
Break up, got to get a life
(You never gonna get, you never gonna get my loving)
Never gonna get my loving
Cause you can't make it right
[Oh, you pretty thing]
Who do you think you are
[Oh, you pretty thing]
