

# Escalators

## Freeway

The ... that bring you hot songs, rock....rock'n'roll  
Touch a soul, got that negro spiritual flow  
People say I'm freezer of the streets 's its a miracle,  
Fresh whips weigh more chips than a year ago  
Free and jake won, Ebony and Ivory  
Make perfect harmony.  
Stevie, Paul McCartney flow  
wonder why i still pack  
Didn't sell a milli when clearly everywhere we go  
They starving for our audio  
Still pull strings just to get the cheese palio  
Travel through more levels than Mario for cardio  
No, we're not about to drop Geronimo  
Clown don't you know we hold it down  
To its time to goWe 'bout to take the elevator up  
We on the rise like the escalator, check my latest  
They say you only good as your last jam,  
Thus far, every bar, upto par, let em' hate us.We 'bout to take the elevator up  
We on the rise like the escalator, check my latest  
They say you only good as your last jam,  
Thus far, every song of the par, let em' hate us.Climb the ladder to success, escalator style x 3As i made my  
competition, respirator styleI go super hard dog, check my archives  
Now it's time to go even harder  
Don't let a bar slide  
Verbal land slide, get your man's burry  
Phrases like the dictionary keep your hands highI tell the truth on my raps and my bars fly  
And you can vision what I'm saying  
Call it pictionary  
Your all barbituous and other stuff  
People must want the picture young on they obituary  
We do 100 yards passes call it Hell Mary  
Before The Black Berry devices they was paging us  
Cause we got it there even when they made it rough  
Yeah, matter of fact that's the reason why we made it here.We 'bout to take the elevator up  
We on the rise like the escalator, check my latest  
They say you only good as your last jam,  
Thus far, every bar, upto par, let em' hate us.We 'bout to take the elevator up  
We on the rise like the escalator, check my latest  
They say you only good as your last jam,

Thus far, every song of the par, let em' hate us.Climb the ladder to success, escalator style x 3As i made my  
competition, respirator styleNo stress my dear, yes my dear  
And my foolish ? is test my ear  
A few rich homies told me that's not care  
But if I treat the kids foney homey that's not fair  
Intuition and I'm holding  
This what the streets get you  
Top notch beat ? God bless my earI travel long distances despite superstition  
Looking forward competition but it's just not there  
All bars ? no short bus shorty  
Check my composition we are on a mission specielle  
The bearded cat with the dumb flow back.  
Say halo rap, that's over your headWe 'bout to take the elevator up  
We on the rise like the escalator, check my latest  
They say you only good as your last jam,  
Thus far, every bar, upto par, let em' hate us.We 'bout to take the elevator up  
We on the rise like the escalator, check my latest  
They say you only good as your last jam,  
Thus far, every song of the par, let em' hate us.Climb the ladder to success, escalator style (We) x 3As i made  
my competition, respirator style.
