

# We're Both Thinking of Her

## Tiffany

You don't hear me talking to ya baby  
Can't seem to get through  
Are you wishing I was someone new?  
You know I am your one and lonely And things are changing fast  
Got a feeling tonight could be our last  
You're running in the wrong direction  
I'm running out of time 'Cause baby we're both thinking of her tonight  
We're both thinking of her  
We're both thinking of her tonight  
What's she got that I ain't got, she's got you Ain't it funny me and her we're best friend  
I remember those nights  
Trading things about you 'til she got it right  
Don't want to seem a little plastic Help me where do I start  
Deep in my mind I know who's on your heart  
You're running away with my best friend  
I'm running out of time 'Cause baby we're both thinking of her tonight  
We're both thinking of her  
We're both thinking of her tonight  
What's she got that I ain't got, she's got you Tell me something you know the words  
What's it gonna be  
Baby tell me what you don't see in me
