

# So Far Gone

## Teenage Fanclub

Could you be the one  
Who wants to turn me into something new?  
Could you be the one  
The one who has to make life fun of you So far gone, so far gone  
I'd love to turn you on Could you be the one  
You always complicate my thoughts of you  
Could you be the one  
You always stop for me to drive right through So far gone, so far gone  
I'd love to turn you on Understand my way  
I hope you will some day  
I understand my way Did you be the one  
That wants to turn me into something new  
Did you be the one  
You always complicate my thoughts of you So far gone, so far gone  
I'd love to turn you on Understand my way  
I hope you will some day  
I understand my way So far gone, so far gone  
I'd love to turn you on
