Miracle

StorySide:B

I bide my time with my guitar
Writing songs alone in the dark
I put Your picture on the shelf
Another story book end
Then You gave me lifeA reason to fight
Against the undertow, we face the night
My God, I need You by my side
All my secrets, trust in YouA miracle is in my hand
I hope I don't throw it away again
A miracle that won't come again, again, againSo I offer to You, these chains I wear
I reach my hands up in the air
Surrender my hope, my love, my dreams to You
All my secrets, trust in YouA miracle is in my hand
I hope I don't throw it away again
A miracle that won't come again, again, againI'm burning from the outside
I'm yearning on the inside
Please don't let me lose sight
I pray to YouA miracle is in my hand
I hope I don't throw it away again
A miracle that won't come again, again, againAll I have to give is all I live
This I give to You
