

# Somebody Loves Me

## Peggy Lee With The Benny Goodman Orchestra

Here I am again, alone in my lonely room  
How can I believe you loved me?  
Here I sit, just thinking of it  
All the time that we spent together We were holding hands  
Making lots of plans, thick or thin  
A lover and a friend to me  
You were so easy to love How can I believe  
That somebody loves me? What happened boy, to the love we shared  
How can I believe you loved me?  
I just need to know that you cared  
Honestly, is the love still there? And if you love me like you say you do  
Why don't we make plans for two?  
All I need is some kind of sign How can I believe  
That somebody loves me? How can I believe  
That somebody loves me?  
How can I believe  
That somebody loves me? How can I believe  
That somebody loves me?  
How can I believe  
That somebody loves me? How can I believe  
That somebody loves me?  
How can I believe  
That somebody loves me?  
...
