

# Keep It on the Hush

## Ludacris

Sister Martha, so glad to see you  
Glad your parole came through  
Oh yea so glad everybody came out this morning  
We reading from the book of hush, today  
Verse sixty-nine, come on somebody, come on somebody  
Good to see all of you came out this morning  
Even though some of you just leavin' 112  
Smellin like booty, and Hennessy, come on  
Courvoisier double shots, ha-hah, it don't matter! Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang  
Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang I'm loving the way your legs go so far back, you're one of  
them flexible girls  
I figure your daddy always said you was one of the best in this world  
But nevertheless in this world, I'm just professional girl  
I teach 'em a lesson, have 'em stressin and confessin to girls  
How good it was, and how good it could be, if they just tried it  
Taking my double dosage skip the daily dick diet  
Tried it, they so excited, and can't hide it  
Im trying to do my thang, but you gotta be quiet Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang  
Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang Now even when I just come in your house  
And cover your mouth because your momma's at home  
You grippin' the sheets and making a effort not to holler and moan  
You got to keep it on the hush, 'cause we in no rush  
You tellin' me its the little things that mean so much  
And its an illusion thinkin' that you can match what I can do best  
So if ya man call, tell him to put some hair on his chest  
But he don't even have to know, we keepin it on the low  
You walking it like a dog, and stay working it like a pro, so Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang  
Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang I'mma taste ya neck, and begin to nibble around your  
earlobes  
Down to your belly button, then I'm un-snappin' your bra  
Thinkin' your titties are tryna tell me somethin  
Hard nipples, colder then ice-sicles  
Workin' it with my tounge, you can just tell me if it tickles

Freaky deaky kinda sneaky, Ludacris and the gang  
Disturbin' the peace, we runnin' the streets and steady slangin' them thangs  
But you gotta keep the noise down, in order to keep the boy down  
Its joy all around, and you know how it sounds, if you just  
Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang  
Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang  
The doors are open  
The doors are open  
Ain't gone be no talking, while I'm doing my thang  
Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang  
Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang  
Keep it on the hush, don't say nothing  
Ain't gone be no talking, while I'm doing my thang  
Yo thang, yo thang  
Yo thang, yo thang  
My thang, my thang  
Yo thang, yo thang  
Yo thang, yo thang  
Look at you sister Johnson in the front row  
With thongs on, your legs open tryna tempt me  
Keep it on the hush, I'll be over at about seven o'clock  
Keep it on the hush, shhh
