

After It Rains

The Laurie Berkner Band

After it rains when the clouds are bright

After it rains I feel all right

And the sun makes angels in the skyAfter it rains I feel all right

And the sun makes angels in the skyThunderclouds

And I run outside

While the rain comes down

And makes a rainbowAnd after it rains I look up to the sky

After it rains I never cry

'Cause the sun is making angels in the sky.
